## Our Canine Menu: natural food of the highest quality.

*Dear Guest, Dear Dog Owner,*

As an enthusiastic and attentive dog owner, I know from my own experience how important good, high-quality and balanced food is for my four-footed friend. He reacts very sensitively and his nose is unerring regarding quality: he doesn't touch anything that doesn't please him. Healthy minerals and nutrients are naturally indispensable for strength, vitality and a shining coat.

We maintain a selection of five different menus to ensure that your dog is ideally provided for during your stay with us. You can thus put together your own individual daily feeding plan.

Our Reception team would be pleased to answer any further questions you may have.

Best wishes

*Your Ben's Family*
